Welcome to the Zoo

Materials Needed : none

Time : 10 -15 minutes

Set up : none

Instructions :

This is a noisy activity. Tell the group they are at the zoo. Then you start by saying I have a owl at my zoo. Then make the owl sound (who, who). Now each of you must pick a different zoo animal to be today. Once you tell who you are you continue to make that animal sound. It is difficult to keep making your sound heard and continue without making your neighbors animal sound. Keep this up till everyone is playing and before you know it they will all be laughing and the ice will be thoroughly broken.
