Texas 4-H Entrepreneurship Project

Project Description

Would you like to learn how to run your own business? Learn how to market and sell your own products in this project. You will get to meet with business professionals and hear how they achieved their business goals and tour manufacturing facilities.

.....

Through the entrepreneurship project you will learn about business principles like product designing, marketing, basic accounting, what a business model is and how to make one, what makes other professionals successful, and the steps that go into manufacturing a product.

Basic

The entry level participation in the Entrepreneurship project, for 4-H members of any age, would include:

- Designing your own product
- Exploring business models
- Hearing from successful business professionals
- Observing a manufacturing plant
- Interviewing entrepreneur's on their business experiences

Intermediate

- After participating in the project for a while, youth may progress their knowledge and skills by participating in more events or expanding their knowledge of entrepreneurship.

Advanced

By the time a 4-H member has reached the senior level, they may further expand their experience in the project with:

- Opening their own business and managing their planned business model.

TAKE ENTREPRENEURSHIP FURTHER

Project Learning Opportunities:

- Attend local and county project meetings.
- Participate in local, district, and state level industry opportunities, such as Ambassador Programs.
- Educational Presentations

Resources:
