2018 G.E.A.R. Game - **WILD THING**

Game Theme

It is morning at the Safari Kingdom wildlife refuge and rehabilitation center. The volunteers have just returned from their morning anti-poaching patrol, and found some areas in the park that need immediate attention. The refuge limits contact with the animals as much as possible, so robots are now employed to handle the vast majority of the chores and tasks in the park.

General Rules adapted for 4-H GEAR contests:
