

HOME SCREEN SECTIONS

County	Number of records in various enrollments statuses, event registrations and screenings that are waiting for approval.
Download Password	This is where your password for secure downloads is located. On various search screens there is an option to download files with sensitive data that are encrypted by the system. This is the password used to decrypt those files. The password does not change and will always be available here for reference.
State/District Bulk Downloads	District and state level event coordinators can perform an event search and bulk download event files. This location on this screen is where the file will show up once the download is completely done. An example of an event file would be a photograph the user was asked to upload during the event registration process.

The screenshot shows the home screen of the Texas 4-H Online system. On the left is a navigation menu with options like Home, Settings, Managers, Members, Participation, Registrations, Broadcasts, Animals, Enrollments, Events, Group Enrollment, Activities, Awards, Groups, Clubs, Screenings, Trainings, Bills, Payments, Custom Reports, and Standard Reports. The main content area is divided into three sections, each with a red arrow pointing to it:

- State Office:** A table showing enrollment statistics for various categories.
- Download Password:** A section for entering a password to decrypt sensitive data.
- Bulk Downloads:** A section for downloading event files.

State Office Data Table:

Enrollments - Incomplete	Total	Count
	Total	1
