

DECISION MAKING

IS THE MAJORITY OF THE PROGRAM AUDIENCE AN ALREADY ENROLLED 4-H GROUP? (IE. CLUB MEMBERSHIP, PROJECT GROUP, ETC)

IS THE PROGRAM COORDINATED THROUGH THE SCHOOL SYSTEM?

There may be several programs that might qualify as either School Enrichment or Special Interest such as Ag Literacy, Safety Education, etc. The determining factor is whether the audience was coordinated through the school system or not.

Other delivery mode options may appear under Group Enrollment; do not select them. Only use the option of School Enrichment or Special Interest.

After a specific audience has been reported once in Group Enrollment (within a given program year), if a different program is provided to the same audience:

- Do not create a new submission; instead, just edit the original submission to add the new project.
- Report only the largest number of participants present at any session for that group.
 - Example: If one visit was 25 kids, another was 30, another was 28....just report 30 for the entire submission.
