

RANGE & PASTURE GRASS IDENTIFICATION

2025 Texas 4-H Roundup

www.reallygreatsite.com/

OBJECTIVES

You will learn to identify all of the 74 native and introduced grasses which are listed on the Master Plant List for 4-H. The grasses in the grass contest are important for their value in making decisions about the Texas forage resources, their health, and help to determine the change that has occurred on our land base in Texas. You will learn how plants grow, grazing impacts on land, grass and plant identification and examination.
