BEGINNER'S GUIDE, PART 1 TO TEXAS 4-H RECORD BOOKS

PURPOSE

Record-keeping is a valuable skill taught to members of the Texas 4-H program. Members are encouraged to keep project records and have these records reviewed annually by submitting a Texas 4-H Recordbook. The primary purposes of completing a Recordbook are for a young person to develop the skills necessary to set goals, work toward achieving those goals, reflect on his/her experiences, and set new and higher goals for themselves. A secondary benefit is to prepare young people for the process of completing academic scholarship and/or collegiate admission applications.

Goal Setting -Getting Started

Prior to or at the beginning of the 4-H year, **a member should begin identifying, setting, and recording personal goals for themselves in each project area.** Parents, club managers, adult volunteers, and County Extension Agents play an important role in helping guide young people through this process. Members should record their personal goals and then begin work toward achieving those goals. It is important to record anything the member would like to learn or do.

The main project a **4-H member selects for** their Record Book should have at least 3 goals.

TIPS FOR SETTING GOALS

Does your goal pass the CONTROL TEST?

Do you have control over all parts of what happens?

If you can answer "yes," then you are ready to begin record keeping.

For example, "I want to win grand champion with my cookies at the county fair," does not pass the control test. A 4-H member cannot control ribbon placing, since it is done at the discretion of the judges.

Keep in mind that younger 4-H members will have fewer, less complex goals than older, more advanced 4-H members. The longer a member is a project area, the more in-depth goals will become. A good rule of thumb is:

- three to five goals per project for members in 3rd to 5th grade
- four to eight goals per project for members in 6th to 8th grade
- six to ten goals per project for members in 9th to 12th grade

Project Coal Examples

Action	Results	Timetable	Who will help me?
Learn Make Lead Keep Coordinate Demonstrate	About lamb nutrition Two baby quilts A project activity Records of project experiences A community service activity My skills in cooking	Before the State Fair By February Monthly By the June project meeting	My Dad My Project Leader My Mom Another 4-H Member A Community Leader My Project Leader

To ensure goals are reachable, 4-H families can use the **SMART** goal test:

- Be Specific When writing a goal make sure to include the what, why and how.
- Measurable How will the 4-H member know they have completed the goal? What is the tangible evidence used to know you met the goal's intention?
- Attainable Make sure the goal is something the 4-H member has the appropriate knowledge, skills, and abilities needed to achieve.
- **Realistic** Think about what kind of control the 4-H member has in achieving the goal.
- Time-bound Discuss timelines on when each goal can be accomplished. Is the goal short term? long term? or somewhere in the middle?
